

Dependency Report

The Dependency Report shows dependencies among M-files in a directory ([Learn More](#)).

Run Report on Current Directory

- ☒ Show child functions ☒ Show parent functions (current directory only)
☒ Show subfunctions

Built-in functions and files in toolbox/matlab are not shown

Report for Directory C:\Users\Irina\Desktop\HARP\flapping membrane wing

M-files	Children (called functions)	Parents (calling functions, current dir. only)
config		test_individual
create_cell	unknown : extractsSmap unknown : initMapStruct unknown : extractRules unknown : mapLS unknown : removeVertices	membrane_flapping_fun
disp_interp		membrane_flapping_fun
inertial loads		membrane_flapping_fun
initControlVars		test_individual
mass matrix		membrane_flapping_fun
membrane flapping fun	current dir : create_cell current dir : wing geom2 current dir : stiffness matrix current dir : mass matrix current dir : inertial loads current dir : pressure interp current dir : disp_interp	test_individual
pressure interp		membrane_flapping_fun
stiffness matrix		membrane_flapping_fun
test individual	current dir : config current dir : userInput current dir : initControlVars current dir : membrane flapping fun	
userInput		test_individual
wing geom2	unknown : meshfaces	membrane_flapping_fun
